RM1B FUND LAUNCHED

Bank Negara's new scheme aims to help low-income Malaysians own home

BANK Negara Malaysia has launched a RM1 billion fund to help households earning RM2,300 and below purchase affordable homes.

Finance Minister Lim Guan Eng said the "Fund for Affordable Homes" scheme would be for the purchase of houses costing below RM150,000 each.

"We will work with Bank Negara to work on enabling the B40 (Bottom 40) group to afford homes," said Lim at Sasana Kijang, here, yesterday.

"The fund will benefit first-time buyers who, otherwise, would not be able to afford a home due to the financial constraints and loan eligibility.

"AmBank, Bank Simpanan Nasional, CIMB Bank, Maybank and RHB Bank will be providing the financing with the rate capped at 3.5 per cent per annum," he added.

Bank Negara governor Datuk Nor Shamsiah Mohd Yunus said with the new incentive, house owners' monthly instalments would be lower by 23 per cent.

"The fund is being offered for two years, starting from January 2. It should be viewed as a temporary measure and offered for a

limited time only."

She said to ensure that home financing remained robust, financing rates must reflect the real risks faced by financial institutions, taking into account the fund and administration costs as well as liquidity and credit risks.

Under the fund, the overall borrowing costs are further reduced through down payment support, affordable mortgage protection rates, waiver of financing appli-

cation processing fee and stamp duty exemption.

Prospective buyers can access the "Rumahku" portal at the Credit Counselling and Debt Management Agency website to apply for the financing.

To date, 16 applications have been received, with five already approved.

Shamsiah reminded prospective buyers to have sufficient savings while ensuring their payment capability remains intact

throughout the loan tenure.

The fund is open for landed properties, flats and apartments priced at RM150,000 and below for a tenure of 40 years, or a maximum age of 70 years, whichever is shorter.

Borrowers will not be allowed to sell their houses within the first five years from the date of the last disbursement or a penalty of two per cent on the outstanding financing would be imposed by the financial institutions.
